Aspiring Software Engineer

CSE student passionate about frontend development and problem solving. Experienced with HTML, CSS, JavaScript, React, and Tailwind CSS. Enjoy building responsive web applications, working with APIs, and exploring data structures & algorithms. Currently expanding skills toward full-stack development.

SKILLS & PROFICIENCIES

Programming Languages

- JavaScript
- Java
- HTML5
- CSS3

Frameworks & Libraries

- React.js
- Tailwind CSS
- React Toastify

Tools & Platforms

- Git & GitHub
- Visual Studio Code (VS Code)
- DrJava

Technical Concepts

- Responsive Web Design
- API Integration & Data Fetching
- DOM Manipulation
- Conditional Rendering
- Data Structures & Algorithms (DSA)
- Graph Traversal Algorithms (BFS & DFS)
- UI/UX Focused Frontend Development

EDUCATION

BSc in Computer Science & Engineering

BRAC University
2024 – Present

Higher Secondary Certificate (HSC)

BAF Shaheen College, Dhaka
Science Group
Passing Year: 2023
GPA: 5.00

CURRENTLY LEARNING

- Backend Development
- Advanced JavaScript
- Data Structures & Algorithms

PROJECTS

Pet Adoption Website

- Developed a responsive web application using React and JavaScript
- Integrated API-based pet data fetching and category filtering

BPL Dream 11 Team Selection App

- Designed responsive user interface based on Figma design
